

LAKE GEORGE CHARTER SCHOOL

COVID-19

Hello Parents, Guardians and Staff,

It has always been our desire to keep students back in our classrooms and school, but we want to do so in the safest way possible. Our Administrator and School Nurse continue to engage in ongoing dialogue with our District Superintendent and Park County Public Health and Environment officials. Additionally, our health team continues to monitor student and staff health within our buildings, as well as case numbers throughout the community and region. Given our strong health protocols and recent trends, we are in the Orange level. This level provides the option for all in-person learners to attend class daily.

We will remain flexible and dependent on changes to our county's color level and recommendation from Park County Public Health and Environment. However, we have a plan and protocols that we believe are sustainable so that students may stay in school. Achieving this goal relies heavily on our staff, students, and families adhering to health guidelines, filling out the health symptom checker and staying home if any symptoms arise, and following guidance from Park County Public Health and Environment when out in the community.

We want to express our deepest gratitude for our staff, students, and families for adapting to the hardships the pandemic has created. Thank you for your continued patience as we navigate the remainder of the school year together.

If you have concerns or questions, please reach out to Zoe Ann Holmes, Administrator at Lake George Charter School.

Kindly,

Zoe Ann Holmes
